

Neslyn Chellaiah Pious Maria Jose

JavaScript Developer | React / Node.js / TypeScript

Vancouver, BC | 902-580-2806 | neslynchellaiah@gmail.com | linkedin.com/in/neslyn-chellaiah-p | neslyn.netlify.app

Eligible to work in Canada (open work permit)

Summary

JavaScript developer with 5 years of experience building scalable, production web and mobile applications across enterprise and startup teams. Specialized in JavaScript and TypeScript with React, React Native, and Node.js, and a track record of improving performance, automating workflows, and shipping reliable features. Comfortable across the full stack, with backend depth in Node.js and Java. Master of Applied Computer Science graduate focused on clean, maintainable delivery.

Skills

Languages	JavaScript, TypeScript, HTML5, CSS3, SQL, Python, Java
Frontend	React, React Native, Angular, Redux, Tailwind, Bootstrap
Backend & APIs	Node.js, Express, REST APIs, Spring Boot
Databases	MongoDB, Firestore, MySQL, PostgreSQL
Testing & DevOps	Playwright, Jasmine, Karma, Git, CI/CD, GitHub Actions, Docker, Agile/Scrum
Tools	JIRA, Postman, Figma

Work Experience

Agile Developer (Internship), SAP, Vancouver, BC **Sep 2025 - Present**

React, Node.js, TypeScript, JavaScript, Playwright, Spring Boot

- Engineered SCIM user endpoints in Spring Boot for user provisioning and lifecycle management across SAP's ecosystem.
- Increased team productivity by 25% by building an internal Chrome extension (React, WXT) that automates repetitive developer workflows.
- Cut test execution time by 30% and eliminated test flakiness by leading migration of the test framework to Playwright.

Application Engineer III, Leadrat, India

Jun 2023 - Jul 2024

Angular, TypeScript, .NET, Azure

- Reduced page load times by 40% by refactoring the frontend architecture, improving UX across mobile and desktop.
- Cut feature development time by 90% by building a user-configurable Data Module with cross-functional teams, replacing hardcoded status handling.
- Mentored 5 developers and ran technical interviews, establishing code review and pair-programming standards.

Software Engineer, TenderCuts, India

Apr 2022 - Jun 2023

Angular, TypeScript, Python, Django

- Reduced store-switching latency by 95% by architecting a multi-store management feature for retail partners.
- Eliminated a recurring third-party vendor cost by migrating map features from Google Maps to MapMyIndia.
- Achieved 100% design consistency across internal applications by consolidating shared styles into a Git submodule.

Associate Consultant, Oracle, India

Sep 2020 - Apr 2022

TypeScript, JavaScript, OJET, Java, SQL, HTML5, CSS3

- Built and integrated features for ICE-T, a project and cost-estimation tool, using OJET and TypeScript.
- Engineered Java backend APIs integrated with frontend components for data handling.
- Presented feature demos to product owners weekly and contributed to Agile ceremonies and code reviews.

Projects

- JavaScript Fn Docs** (VS Code extension; Node.js, Gemini AI, REST API, TypeScript): Auto-generates documentation for 40+ functions via Gemini AI, reducing manual effort by 70% with 90%+ unit test coverage.
- Take Me There** (ride-booking app; React Native, Node.js, MongoDB, Firebase): Built secure Firebase authentication and Node.js/MongoDB APIs for user and trip data with drawer-based navigation.

Education

Master of Applied Computer Science, Dalhousie University, Halifax, NS

2026

B.E. Computer Science & Engineering, Sathyabama Institute of Science and Technology, India

2020
